About This Game

TowerFall Ascension is the definitive version of the hit archery combat game. Inspired by classics from the golden age of couch multiplayer, it's a 4-player local party game centering around hilarious, intense versus matches. The core mechanics are simple and accessible, but hard to master and combat is fierce. Loot treasure chests for game-changing power-ups, master the art of catching arrows out of the air, or descend on your foes and stomp them into submission. TowerFall is best played competitively with friends, cross-legged on the floor within punching distance of each other.

New in Ascension is the 1- or 2-player co-op Quest mode. Players work together, fighting off a variety of monsters and enemy archers across the land of TowerFall. It's a new adventure to explore when you don't have more friends handy to square off against.

New features in TowerFall Ascension include:

- Brand new 1- or 2-player co-op Quest mode
- 50 additional Versus arenas, for a total of 120 unique maps
- More game-changing power-ups, such as Drill Arrows that burrow through walls
- 4 new unlockable, playable archers, for a total of 8

-
- A huge list of variants to customize your matches - a total of 75 ways to mix things up
 - Plenty of hidden secrets and surprises to discover with your friends

Gamepad support is terrible!

3-4 arrows to shoot, then you are out of ammo!

Wow!

0/10. Despite having a difficult time finding ways to play this game (with it being local only), this is one of my favorite games and people always enjoy playing it no matter who I play with. 100% worth the price
